The Center for Gender Equity in Science and Technology (CGEST) at Arizona State University (ASU) invites applications for a Postdoctoral Scholar with an anticipated start date of July 2016. Under guidance of principal investigators for an exciting, nationally recognized NSF-funded multi-year program (compugirls.org), the successful candidate will take on the following leadership roles in the project: develop research agendas related to program activities associated with gender equity and technology, and further the mission of social science and humanities research at ASU. We offer a dynamic, collegial, and challenging work environment due to the fast pace of innovation, complex array of research and programs, and high profile initiatives.

The successful candidate will also collaborate on select digital research projects, including the use of analytical and curatorial tools, technology, etc. to help research teams achieve goals; develop prototype demonstration projects for use by others; leverage existing institutional resources for extending impact of existing data and project outputs; and provide training, group instruction or workshops as appropriate. This is a one-year (July 1, 2016 – June 30, 2017) fully funded position with the possibility of renewal contingent upon satisfactory performance, availability of resources, and the needs of the university. Minimum and desired qualifications can be demonstrated through formal or informal educational settings.

Minimum qualifications include:

1) Ph.D. or Ed.D. in related field of education, digital humanities, information science, sociology, and/or gender studies.
2) Experience working in an interdisciplinary social science environment.
3) Demonstrated familiarity with current work in critical feminist studies, critical digital media, and/or critical pedagogy.
4) Demonstrated record of effectiveness mentoring of students.
5) Strong written/oral communication skills.
6) Practical and theoretical experience implementing and researching culturally responsive pedagogical practices and their effectiveness with diverse populations.

Desired qualifications include:

1) Demonstrated experience developing/administering programs, events, and collaborative research projects.
2) Experience with new media and technology applications for research and development in digital technologies.
3) Experience working on grant funded projects.

Application deadline: February 12, 2016
Review of applications will begin immediately, if not filled, every two weeks thereafter until the search is closed. A background check is required for employment.

To apply, please submit a single PDF document to cgest@asu.edu incorporating the following documents:

1) A letter of intent describing a proposed project of study during the fellowship.
2) A curriculum vita delineating areas of research, pertinent professional experience, publication record, honors/awards, and teaching experience.
3) A scholarly/professional writing sample representative of your written work.
4) Contact information for three professional references (name, email, telephone number).

Arizona State University is a VEVRAA Federal Contractor and an Equal Opportunity/Affirmative Action Employer. All qualified applicants will be considered without regard to race, color, sex, religion, national origin, disability, protected veteran status, or any other basis protected by law.
